

ONE DAY RESET

“The Full-Body One Day Detox to Look & Feel Amazing!”

Can You Really Change Your Body in Just 1 Day?

Have you ever felt bloated, puffy, swollen, or that you were retaining water?

Or have you ever eaten a little too much at an event, cheat meal, or maybe even overindulged with an entire cheat weekend?

Or do you just feel inflamed, have some stiffness or joint pain, or get frequent tension in your head, neck, shoulders, lower back or legs?

“After this simple 24-hour reset I lost 3 lbs, my stomach looks flatter, and I no longer feel bloated or have any brain fog!”

- Janice, Age 33

If you answered yes to any of the questions above, the *One Day Reset*® is the perfect fit for you to get back on track!

The *One Day Reset* will help you drop toxic water weight, decrease inflammation, eliminate brain fog, and reset your body & mind.

In just one day you really can complete a 24-hour turnaround that will get you back to living a healthier lifestyle...

How It Was Discovered...

The *One Day Reset* actually came about when many of my body transformation and wellness clients begin doing a single day detox (a *modified version of Days 1 & 2 of the Dr. Cabral Detox*) after a weekend cheat meal.

The reason for this is that they woke up feeling bloated, they had brain fog, and they just wanted to quickly lose the 2 to 3 pounds they gained over the weekend...

Typically, in order to lose that weight it would've taken until Friday, or about 4 to 5 days after that weekend's cheat.

“What used to take 4-5 days can now be accomplished with the *One Day Reset*...”

- STEPHEN CABRAL

It's actually quite smart on their part because they use the same method of thinking to reduce inflammation just like on days 1 & 2 of the 7, 14, or 21-day Dr. Cabral Detox (more on that later).

“It feels like someone stuck a pin in me and deflated all the puffiness, swelling, and water weight...”

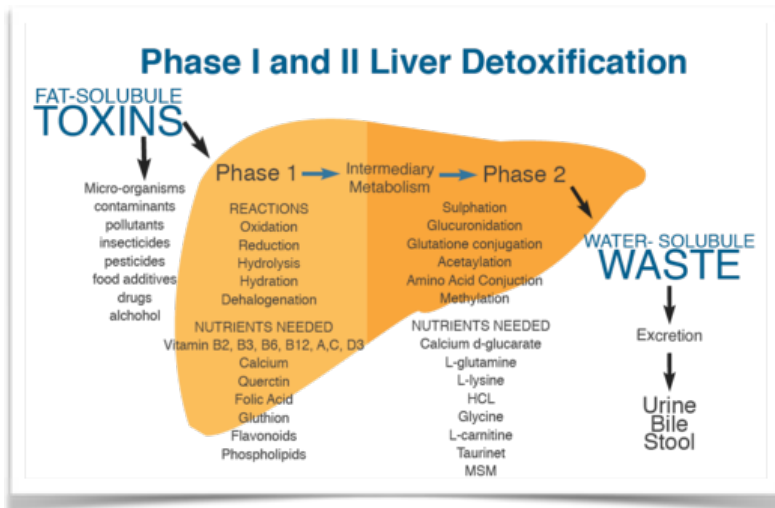

- Lisa, age 24

But with one day of using the daily nutritional support shakes, my clients found that they were able to quickly turn their body and mind around in less than 24 hours...

As I said earlier, many of the same clients who had been doing a *One Day Reset* had previously used the Dr. Cabral Detox, which is how they came up with the idea of doing the one day liquid fast until dinner...

Here’s Why It Works So Well...

Very quietly for the past 4 years I’ve helped thousands of people in my Boston practice, Cabral Wellness Institute, to lose weight and get well using a very specific detox protocol that takes advantage of a process called, “Autophagy.”

It’s a scientific natural process that your body does all on its own...

The problem is that most people never allow it to happen and work to its maximum potential. But, if they did they would see near miraculous wellness, weight loss, and anti-aging benefits and results.

Before 4 years ago, I only used this 7, 14, or 21-Day Detox with the people I cared for in my practice suffering from auto-immune disorders. Not only did their symptoms start to subside in this short period of time by rebalancing

their body and using this process of autophagy, but they lost about 5 lbs per week as a “fringe benefit.”

Once I saw these unheard of results, I set up 4 focus groups over 1 year and confirmed the results with a wide variety of clients ranging from wellness to weight loss to general health.

And the results from those focus groups were so incredible, I knew I had to share this system with others. After all, my mission is to help as many people to live their best life possible, and to do that they must feel good in both body and mind...

This is why for the first time I released the Dr. Cabral Detox to the public this past January and it’s helped so many people we even just sold out of product this October! (You can see the full protocol at DrCabralDetox.com)

The Noble Prize Winning Secret

I just touched on this a minute ago, but the real secret to the Dr. Cabral Detox is the process of maximizing the natural process of autophagy that happens when your body doesn’t have any new food coming in...

Essentially all autophagy is, is your body cleaning its own blood and killing cancer cells, dead tissue, parasites, etc., that happens when no new food or toxins are coming in -

“I also really love that my stomach and midsection have gotten considerably thinner...”

- Alyssa, Age 27

And believe it or not, the Noble Prize this year actually went to research on this same topic!

Although it's not a very well known topic now, you will soon be hearing about it in the media and other Natural Health practitioners will eventually begin using it in their practice once they learn more about it...

But you don't have to wait that long!

How to Get Started

The best part of the *One Day Reset* is that it's so easy to complete...

Besides the great results, ease of use is probably the thing about it that has made it so popular and why my private clients and online members keep coming back to it - and well as sharing it on social media with others.

But, don't let the simplicity fool you...

The *One Day Reset* is very specific in how it works.

You will be drinking 3 delicious vanilla shakes every 3-4 hours so that you're never hungry during the day.

But these aren't any "ordinary" shakes...

The Difference Is in the Formula

They are called All-In-One shakes that provide you with all the vitamins, minerals, electrolytes, antioxidants, methylated b-vitamins, natural detox co-factors, and a hypo-allergenic vegan protein.

"It's good to be back to my old self and not feeling so achy, irritable and inflamed!..."
- Ted, Age 37

This means you're getting a massive amount of nutritional support every 3.5 hours that's packed full of all the micronutrients your body needs to support natural detoxification and autophagy.

This was "my secret" formula I was using for 4 years before releasing it to the public in 2016.

Remember, you don't need to know the science behind how it works for it to work - just know that your body is using the power of a liquid fast, while still getting the protein & nutrients it needs to keep your metabolism boosted and your body's own natural detox system supported...

(The nutrients in the Daily Detox Shake were specifically chosen based on proven scientific research to support your body's ability to clean and purify itself by strengthening liver function, which is the main "filter" for cleaning your blood.)

The One Day Reset Meal Plan

The other great thing about the *One Day Reset* is that you don't have to go the whole day without eating any whole food!

The Dr. Cabral Detox does include 2 liquid fast days to maximize wellness, anti-aging, and/or weight loss benefits, but the *One Day Reset* diet is not meant to be as strong.

It is simply a way to switch gears, and reset your body and mind - but still get great results!

So, after the 3 shakes during the day, you will get to enjoy a tasty dinner consisting of 1-2 cups of vegetables, 1-2 TBSP of olive oil as a dressing (you may squeeze *lemon on top as well*), and a *handful of lean protein (vegan, vegetarian, or animal based)*

(Check out the simple cheat sheet on the right for the easy to follow One Day Reset meal plan.)

Don't Over Think This...

My number one recommendation is to simply go about your normal day and then sip on your all-in-one shakes about every 3-4 hours.

Then you'll just come home and enjoy a healthy dinner that night.

It's simple and it works - and that's the point!

Your body needs a day to calm down, relax, recharge, and not use all of its energy for digestion or taking on new food toxins...

So whether you decide to go on after the One Day Reset and use the Daily Nutritional Support Shake on a daily basis for breakfast or mid-afternoon (90% of our private clients all use it as their breakfast and love the continued results!), it's best to at least keep 1 bottle on hand for when you need it.

Guaranteed Results

One thing I've always believed in is guaranteeing results...

Ever since I started working, I felt compelled to always guarantee my services. I honestly believe that if you know what you do works, why not guarantee it?

So, after 20 years and over 150,000 client appointments completed in my two Boston, MA practices, I know what works. I see it everyday...

But even more so, I want you to experience the same results that my private clients get. Last year, I made it my mission to spread the word about what works in the real world and this is just one way I am trying to stay true to that promise.

So, when you complete the *One Day Detox* I want you to do so with no risk.

I know people have been burned in the past and are skeptical, which is why I want to make it simple.

If you don't love the result, simply return your Daily Nutritional Support Shake for a full refund. No hassles.

Guaranteed.

But, the truth is it will work for you. And you will love it...

"I use the One Day Reset every time I feel like I'm in a funk and I need to clear out negative thoughts and energy... I also don't mind that I feel less bloated and noticeably leaner in just one day ;)"
- Sam, Age 43
